

You are invited to an exclusive

GP masterclass and workshop

The Knee Patient in Primary Care

Friday, 30 November 2018

*Executive Boxes 3 and 4, Ageas Bowl,
Botley Rd, West End, Southampton SO30 3XH*

10:00 – 15:00 | 4 hours CPD

This **genuinely useful** and **exclusive free event** will focus on new and changing knowledge **central to everyday practice**; specifically information and **updates on the diagnosis of knee complaints**, practical exercises and strategies for minimising pain, **referral advice and aftercare**.

It will be delivered using real patient case studies, clinical lectures, and practical workshops and will include Q&A sessions.

Key presentations by...

Philip Chapman-Sheath

BSc, MBBS, FRCS (Eng), FRCS (Tr & Orth)

Recently voted by his colleagues as one of the top knee replacement surgeons in the UK, Philip performs 4x more revision knee surgeries than the national average, and twice as many knee replacements. His published outcomes for all primary and revision knee replacements are consistently above the national average.

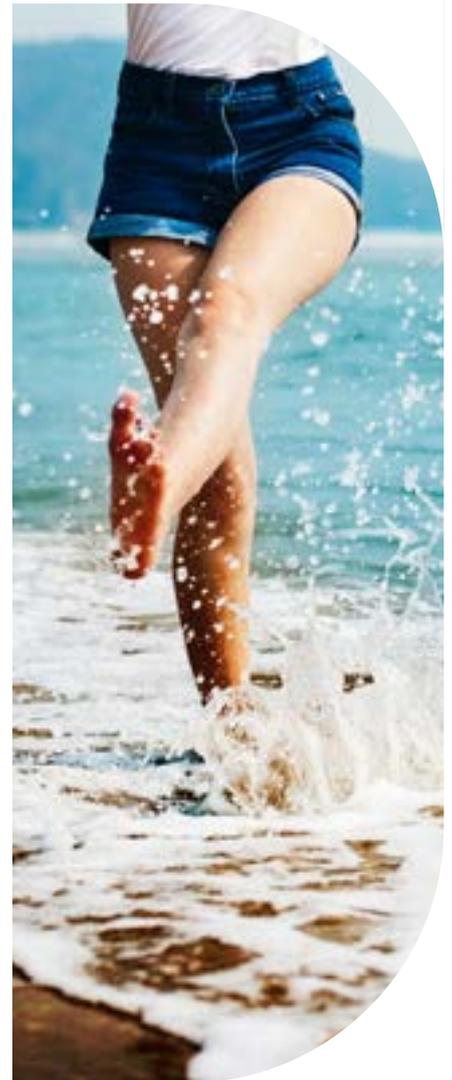

Dan Young

MSc BSc MCSP HCPC AACP

Physiotherapist and Clinical Lead at Hampshire Wellbeing Centre. Dan has a wealth of clinical experience built up from his early days in the NHS, through to a long period of time working for the Military, and finally private practice. He is a member of the Hampshire Cricket medical team helping keep the players on the field.

Topics included will cover...

- ACL injury prevention, diagnosis and management in children and adults
- Cartilage transplantation - what's new?
- Partial vs Total Knee Replacement in 2018
- The importance of pre-hab and rehab in knee surgery
- Obesity and Knee Surgery - what's the issue?
- Specific self management exercise and strategies for the treatment of anterior knee pain
- Bracing options for the non surgical management of unicompartmental knee arthritis
